Roadmap: 2022-23

Token Ecosystem:

The Binance Smart Chain (BSC) is a blockchain network that runs in parallel to the Binance Chain. In contrast to the Binance Chain, BSC features smart contract functionality and compatibility with the Ethereum Virtual Machine (EVM). The Binance Smart Chain offers our community the added interoperability of facilitating their investments through Ethereum-based wallets, such as MetaMask. An added advantage of issuing VOZ on the BSC is that it offers our community an affordable blockchain experience through smaller transaction fees compared to the Ethereum Network.

PancakeSwap

PancakeSwap is a Binance Smart Chain Decentralized Exchange (DEX) for swapping BEP-20 tokens. To enable VOZ Coin's buying and selling, PancakeSwap offers our community the ability to exchange their BNB for VOZ.

VOZ is a BEP20 token issued on the Binance Smart Chain with a Current supply of 800,000,000 tokens. Burning Process: Total Supply – (Reward Coins=Burned Coins) = Balance Coins

An Equal Amount that of the reward coins will be burned permanently.

On Hydrus7 Blockchain:

All Future Coins & Tokens on
Hydrus7 Blockchain
will be TRADEABLE with **VOZ**

What is HYDRUS7?

The fourth-generation blockchain technology leading us to a sustainable and better future.

Hydrus7 is the latest generation of blockchain.

Hydrus7 is an outright milestone of the fourth-generation blockchain which is poised to solve the issues caused by previous generations of blockchains. Hydrus7 is based on decentralized ledger and is an open source technology, hence it can be utilized by many companies for their further developments.

It is built with robust advancements in a more structured and scalable manner with the help of AI, ML, Data Compression in Blocks, Sharding, and many other cutting-edge technologies. These technological developments make it possible to overcome the distant dream of better and faster interchain data exchange. It has helped in instantly verifying transactions. Hydrus7 blockchain ensures that these capabilities like atomic swaps, stable side chains with an easy mechanism to add transaction nodes, and the ability to add multilayered consensus algorithms, will lead to a strong, secure, fast, and intelligent Blockchain.

Core Values:

Be Magical

We are positive and kind above all else. Our main goal is to create happiness in the lives of Vozians.

Be Charitable

We strive to be as giving as we can possibly be, helping out our community as much as we can.

Be Sustainable

We make decisions that are based on our long-term health, not the short-term gain.

Be Transparent

We strive to be open and honest with our community at all times, for the benefit of all involved

How To Buy VOZ Coin?

You will be able to purchase VOZ with BNB

You can easily visit our officially listed exchanges

(PancakeSwap/Bilaxy.com/Catex.io/ KoinBazar) and buy/sell/trade VOZ.

Else:

CREATE A WALLET

Create SafePal/MetaMask/Trust Wallet. They are available on AppStore and Google Play. If you are on a desktop, we would recommend downloading SafePal/Trust Wallet Google Chrome addon. Make sure to save your private keys in a secure place

PURCHASE BNB

Purchase Binance Coin (BNB). It's available on most exchanges, such as Binance and Coinbase. Once you purchase the desired amount, deposit it into your SafePal/MetaMask/Trust Wallet. Make sure to enter the correct address and choose the correct network.

VOZ Contract Address:

0x052d9Fff3A5a745c59612451aCBD13EA6B423fd9

Which you can get from our website as well.

Buy VOZ Coin with available pairs on listed exchanges:

VOZ-ETH, VOZ/USDT, VOZ/BNB, VOZ/INR and all the currencies available on Pancake swap.

Ancillary Token Utilities:

Staking

Voz Coin can be multiplied merely by holding the tokens in the wallet through this feature.

Staking puts your Voz Coin to work, it generates incentives while it is staked. When a user chooses to stake Voz Coins, it becomes a part of the process and you earn rewards as the part of the process which in generates more income to our users. We support manual as well as auto compounding to get our step users the best annual percentage yield (APY) out of your staking. Staking is not compulsory, users can wish to stake their tokens and earn rewards and in turn get more out of their investment without much work. With our auto compounding staking becomes more efficient with more benefits to our Voz Coin holders.

Swapping

Apart from trading the Voz Coin on various exchanges and swaps such as Pancake Swap, this crypto currency can also be used to swap the current and exciting projects available on the state of the art blockchain, Hydrus7. The technological applications of this chain of highly advanced architectural chain already has onboarded various promising projects and soon be increasing its horizons. Apart from BNB, Voz Coin will be permitted to be Swapped to JD Coin cryptocurrency since from the beginning. Thereafter, various other tokens on the Hydrus7 Coin shall be provided for Swapping, as may be applicable, from time to time.

Marketing Strategy:

Influencers

We plan to actively reach out to (and funding when needed) partnerships with influencers in the crypto, poker, and Crypto communities to share informational posts about VOZ, announcements of giveaways, and memes/funny content to peak interest in the project.

Social Media

We at VOZ are dedicated to having impeccable content on social media, including hype videos, memes, and other shareable content. We have a network of professional creators that are assisting us in fulfilling this mission.

+ Many more surprises along the way
